

# Experience the best of both worlds 3D winter school

20–24 January 2016 – Helsinki and Lapland, Finland

Combine academically accredited continuing education in Helsinki with a wonderful weekend in snowy Lapland – the Nordic Institute of Dental Education's *3D winter school* package is a unique combination of learning and leisure.

- Acquire the latest skills and knowledge at our *3D imaging and diagnostics* course in Helsinki
- Escape to the calm tranquillity of Finnish Lapland for a magical winter weekend
- Return home with new experiences and expertise

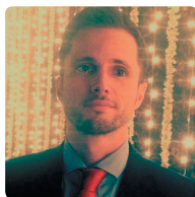

The Nordic Institute of Dental Education offers leading continuing education to dental professionals from all around the world.

Our *3D winter school* package is the perfect blend of business and pleasure, as it combines our academically accredited 3D imaging course in Helsinki with an exciting snowy adventure in Lapland.

After a productive course of learning the latest skills and knowledge in 3D imaging, spend a memorable weekend in Lapland's tranquillity hunting for the aurora borealis and connecting with the arctic elements.
