Expand your expertise
and discover all the Nordics can offer

Welcome to the Nordic Institute of Dental Education (NIDE)
- the dental training company of Planmeca and the University of Turku.
We offer continued education courses to international dental professionals, combining the latest topics
in dentistry with the newest dental technology and highly qualified academic lecturers.

It’s been the best conference I’ve ever been to. I’m so excited to go home and utilize this in my day-to-day work.

Dr. Karyn Becconsall
Oral surgeon
New Zealand

They fully met my expectations and even exceeded them. The lecturers were so professional and knowledgeable – I really admired them for it.

Dr. Mirna Munitic
Prosthodontist
Croatia

The best thing is that you’ll meet wonderful speakers and get to discuss the topics with international colleagues.

Dr. Haitham Al Juboori
Orthodontist
United Arab Emirates

Ada CERP®
Continuing Education Recognition Program
Nordic Institute of Dental Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.
NIDE course selection:

Please note that our up-to-date course schedule can always be found at www.nordicdented.com!

### 3D imaging courses

CBCT imaging has become the new standard of care in dentistry. Follow our 3D course steps to take full advantage of your CBCT equipment and understand all the intricacies of modern 3D diagnostics.

### CAD/CAM courses

Computer-aided design and manufacturing (CAD/CAM) technology has already revolutionized the field of dental restorations. We offer a comprehensive selection of cutting-edge CAD/CAM courses for users of all levels. To achieve the deepest possible CAD/CAM understanding, it is recommended to follow all course steps from 1 to 3.

Digital implant workflow
Digital technology has revolutionized the implant workflow, improving the quality and efficiency of treatments. Take this course to learn how to digitalize your workflow from smile design to surgical guide design and final restorations.

Aesthetic dentistry
Aesthetics is a central trend in the field of dentistry. Deepen your knowledge on the topic by attending our Aesthetic dentistry course and expand the restorative dimensions of your practice.

Digital dentistry summer/winter school
Combine work and fun with our comprehensive seasonal course package! It brings our beginner’s courses in 3D imaging and CAD/CAM together as one intensive five-day option – featuring a first-rate program both in and outside of the lecture room.

Minimally invasive chairside restorations
Modern dentistry has evolved to emphasize a less invasive approach. Attend our course to learn about the latest conservative treatment concepts in restorative dentistry.

Customised courses
We also offer tailored courses and study tours for groups of over 10 people. For more information, please contact us by email: info@nordicdented.com

Enjoy a Nordic evening!
All course participants will be invited to taste Nordic delicacies at a complimentary dinner and to relax in a Finnish sauna.
Acclaimed lecturers

Our lecturers are leading experts in their fields. For more information and lecturer CVs, please visit our web page: www.nordicdented.com.

Combine your course with a Nordic holiday!

Enjoy the sights of historic Tallinn

Meet the real Santa Claus

Have fun in snowy Lapland

Relax in the Finnish Lakeland

Escape to the calm of the Finnish archipelago

Indulge in design in seaside Helsinki

Spend a day in stylish Stockholm

Discover the wonders of magical St Petersburg
