

# Digital implant workflow

Digital technology has revolutionized the implant workflow, improving the quality and efficiency of the treatment. Take this course to learn how to digitalize your workflow from smile design to surgical guide design and final restorations.

In addition to the course, we invite you to visit Planmecca's seaside villa to enjoy the beautiful Helsinki archipelago, to taste Nordic delicacies at dinner and to relax in the Finnish sauna.

## Course objectives

- Explore the possibilities that digital implantology offers to your practice
- Understand the benefits of guided implant placement
- Learn how to easily design and manufacture surgical guides
- Design and fabricate final restorations chairside

## Course schedule
